Abstract— The present research article puts forth the dissimilarities in the pronunciation of same letters/combinations of same letters initiating with alphabet 'S' in distinct English words. The same letters/combinations of same letters initiating with alphabet 'S' in distinct English words, having dissimilarities in the pronunciation, are seventy-two in total which have been focussed with four hundred and thirty-five samples consisting of words plus phonetic transcriptions which will stimulate the English language learners to become supreme in the chosen fragment of presentation. This article consists of introduction, hypothesis, objectives, methodology, significance, limitations, 'S' alphabet and explanations with samples. The conclusion as well as references are the important parts of any research and they have been incorporated in the final part of the article.

Keywords— Analysis, Fragment, Same, Stimulate, Supreme.

I. INTRODUCTION

This research article puts forth the dissimilarities in the pronunciation of same letters/combinations of same letters initiating with alphabet 'S' in distinct English words. The same letters/combinations of same letters initiating with alphabet 'S' in distinct English words, having dissimilarities in the pronunciation, are seventy-two in total, i.e., s, sa, sca, sce, schi, sci, sco, scou, scra, scri, scru, se, sea, sei, sh, sha, shea, shi, shou, shri, si, side, sie, sig, sign, ske, ski, sla, sli, slo, sma, smi, smo, sna, snee, sni, so, soa, sou, sow, spa, spe, spea, spi, spli, spo, squa, squi, ssa, sse, ssi, sso, ssu, sta, stai, ste, stea, stee, sti, stia, sto, stra, stri, stro, stu, su, sue, sui, swa, swea, swi and sy. These seventy-two same letters/combinations of same letters initiating with alphabet 'S' in distinct English words, having dissimilarities in the pronunciation, are focussed with four hundred and thirty-five samples consisting of words plus phonetic transcriptions.

II. HYPOTHESIS

There are dissimilarities in the pronunciation of same letters/combinations of same letters initiating with alphabet 'S' in distinct English words.

III. OBJECTIVES

- To look for distinct English words containing same letters/combinations of same letters initiating with alphabet 'S' with their dissimilarities in the pronunciation.
- To transcribe these distinct English words properly, highlighting the same letters/combinations of same letters for better understanding.
- To make available a fine piece of outcome to the English language learners.

IV. METHODOLOGY

Deliberate Sampling Method is adopted while selecting the alphabet 'S' and seventy-two same letters/combinations of same letters. Qualitative Research Method is adopted while presenting the findings and other details.

V. SIGNIFICANCE AND LIMITATIONS

This research article is significant as it will stimulate the English language learners to become supreme in the chosen fragment of presentation. This research is limited to look for dissimilarities in the pronunciation of same

letters/combinations of same letters initiating with alphabet 'S' in distinct four hundred and thirty-five English words.

VI. 'S' ALPHABET AND EXPLANATIONS WITH SAMPLES

The seventy-two same letters/combinations of same letters initiating with alphabet 'S' in distinct English words, having dissimilarities in the pronunciation, are tabulated with four hundred and thirty-five samples consisting of words plus phonetic transcriptions as follows:

Table - 1 'S' Alphabet and Explanations with Samples

VII. CONCLUSION

The above analysis containing seventy-two same letters/combinations of same letters initiating with alphabet 'S' in distinct four hundred and thirty-five English words, i.e., s, sa, sca, sce, schi, sci, sco, scou, scra, scri, scru, se, sea, sei, sh, sha, shea, shi, shou, shri, si, side, sie, sig, sign, ske, ski, sla, sli, slo, sma, smi, smo, sna, snee, sni, so, soa, sou, sow, spa, spe, spea, spi, spli, spo, squa, squi, ssa, sse, ssi, sso, ssu, sta, stai, ste, stea, stee, sti, stia, sto, stra, stri, stro, stu, su, sue, sui, swa, swea, swi and sy clearly shows the dissimilarities in the pronunciation of them. Thus, the hypothesis has been validated. Further, this elaboration will assuredly stimulate the English language learners to become supreme in the chosen fragment of presentation.
